Texas Trauma Coordinators Forum

Since 1994 we have maintained a collation comprised of over 200 members from Level I, Level II, Level III, and Level IV trauma facilities and systems in Texas who meet quarterly to share resources, provide education, and expand networking to support trauma hospitals and the state trauma system.

Our committees include: Trauma Registry, Injury Prevention, Special Populations, Education, Membership, Finance, Legislation/Public Relations, Level I, Level II, Level III, and Level IV. Each of these committees provide networking, resources, education, and support to TTCF members.
