

TTCF Remembers...

Wanda was a passionate Texas Trauma Nurse who lived and worked in the towns of Industry, Bellville and Brenham. She was married to Terry and had two great children, Wendy and Terry Clay. She worked at Trinity Hospital as the Trauma and Stroke coordinator. She also spent time working for the Brenham State Supported Living Center as a quality assurance nurse.

Wanda had a lively and seasoned career. She served on the Board of TTCF; including as President, Director at Large and Committee Chair. She was active in the Brazos Valley Regional Advisory Committee as Secretary and Committee Chair. She also spent time training the Trinity Hospital staff in Disaster Preparedness and Emergency Response.

Wanda received the **Lifetime Achievement Award** from TTCF for her many years of hard work and dedication to her community and the trauma patients she so dearly cared for. Wanda participated many times in *Trauma Day at the Capitol*, educating legislators on the importance of continued support for trauma funding. She was active an educator and mentor to many trauma nurses of all ages. TTCF will sorely miss Wanda Kay Peschel Wiktorik.

May God Bless Wanda. And may God Bless her friends and family.

Wanda reminded us... that life is way too short!
